

Matrimonial Law And Digital Forensics

Elizabeth Howell, JD and Andy Cobb, PhD

**GOLDBERG
SIMPSON**

Overview

- Why Do We Care About Digital Evidence
- What is Digital Forensics?
- The Digital Forensics Process
- Using a Digital Forensics Expert

Why Do We Care?

- Affirms your client's credibility to the court
- Raise questions about the credibility of the opposing party
- Gives your client security that you are working to protect their electronic evidence
- Presents an opportunity for settlement

What Is Digital Forensics?

- What is Forensics?
 - Locard's Exchange Principle

What Is Digital Forensics?

- Goal:
 - Find out what happened

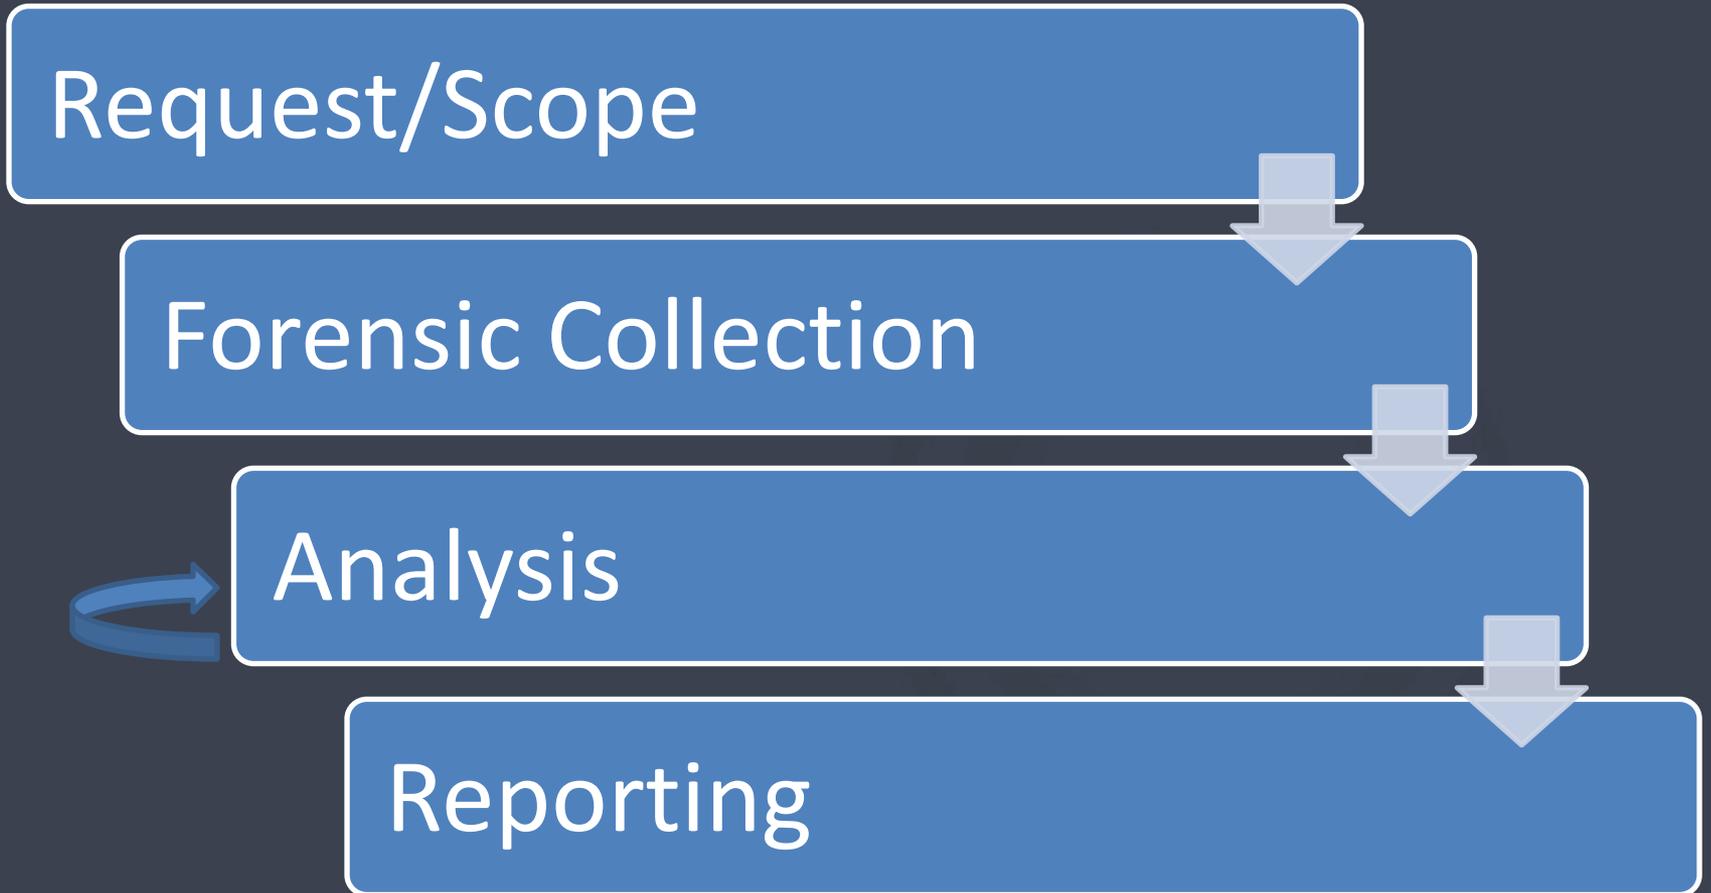

What Is Digital Forensics?

- How?
 - Piece together the activity

Digital Forensics Process

Digital Forensics Process

- Scope
 - What do we know?
 - Who was involved?
 - What data are we interested in?
 - Where is that data?

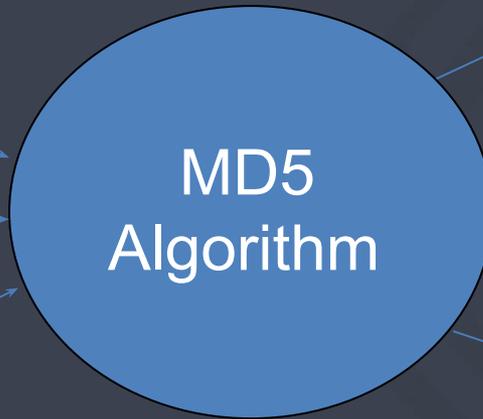

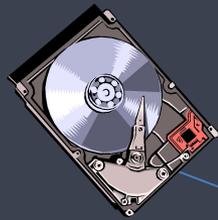

Digital Forensics Process

- Forensic Collection
 - Exact bit-for-bit copy
 - Metadata/timestamps preserved
 - Copy is verified
 - Where is that data?

Digital Forensics Process

	Name	Name	
	Signature	Signature	
	Name	Name	
	Signature	Signature	
	Name	Name	
	Signature	Signature	
	Name	Name	
	Signature	Signature	

Digital Forensics Process

- Forensic Analysis
 - Analyze exact copies, not originals
 - What to analyze?
 - Iterative
 - Communicate findings

Digital Forensics Process

- Reports
 - Phone call
 - Report from a tool
 - Affidavit or declaration
 - Testimony

Digital Forensics Process

Photo Metadata

The screenshot displays a software interface for viewing photo metadata. On the left, a file list shows several JPEG files from a Nikon camera. The main preview area shows a landscape photo of a green field under a blue sky with white clouds. On the right, a metadata table provides detailed technical information about the photo.

Tag name	Value
	---- IFD0 ----
ImageDescription	
Make	NIKON
Model	COOLPIX S3100
Orientation	Horizontal (normal)

Cellphone Report

- Demo...

Case Study #1: The Prenuptial Agreement

You represent Wife who has come to you for a divorce with a Prenuptial Agreement in hand. It appears the parties signed the prenuptial agreement the day of their marriage in front of a notary without attorney representation. Wife wants the agreement upheld as it protects his large estate. Husband claims that there were irregularities in the execution of the agreement amounting to fraud, duress, mistake, or a misrepresentation or nondisclosure of material facts including that he did not read the prenuptial agreement, never met with an attorney, and was forced to sign it the day of the wedding or forgo a wedding.

Case Study #2: The Bad Financial Actor

You represent Wife who has come to you for a divorce. Husband runs a business largely in cash with his brother. Your client suspects Husband is hiding the true nature of his income, as well as his contributions to the growth of the business during the marriage. Husband claims brother runs the business and he is only a lowly employee.

Case Study #3: The Cheating Spouse

Your client believes the opposing party has been having an affair for the last six years of the marriage. They want you to prove it and take all the evidence to court so you can win their case.

A Lawyer's Process

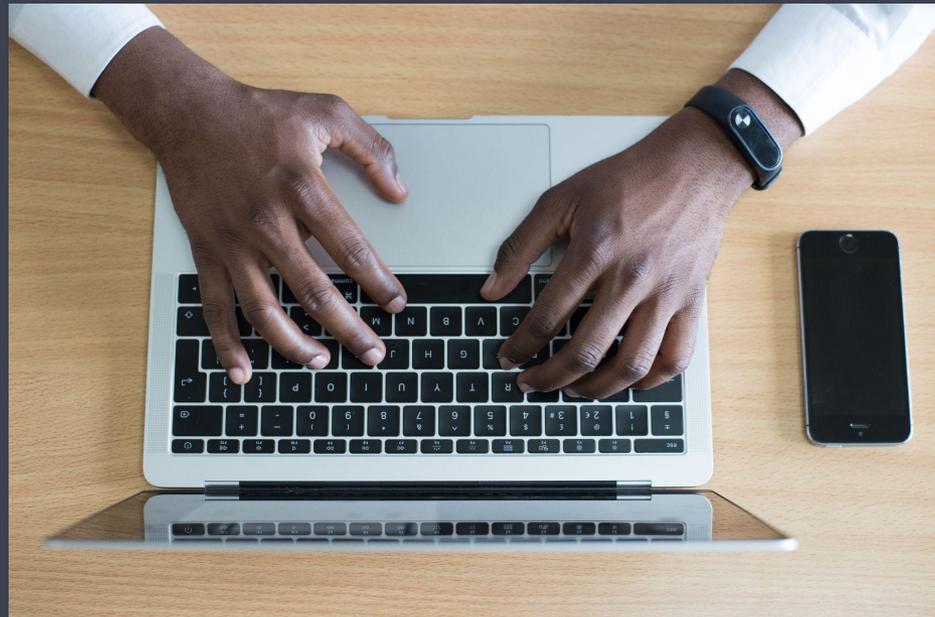

- **Setting up your case**
 - Do I need an expert?
 - Selecting your expert
 - Scope of assignment
 - How/when/where will I get results?
- Discovery
- Trial

A Lawyer's Process

- Setting up your case
- **Discovery**
 - Spoliation Letter
 - Requests for Production/Interrogatories
 - Motion
 - Dealing with Privilege
- Trial

A Lawyer's Process

- Setting up your case
- Discovery
- **Trial**

A Lawyer's Process

- What was the scope of your assignment in this matter?
- Did you compile a report?
 - What steps did you take in creating the report?
 - How did you set up the search?
 - Keywords
 - Can you walk me through your report?
 - modification date of a document is the most accurate means to determine when a document was edited or modified
 - creation date
 - multiple files
 - meta date (external v. internal).
- Admit Report

A Lawyer's Proces

- Are these documents you forensically recovered?
- Are they the same document?
- Why would there be multiple copies of the same document?
- When were these documents modified? Why is that significant?
- Were they created at the same time? What does that signify?
- Move to admit

Takeaways

- Get ahead of it
- Know what data you can get
- Solicit expert for ideas - they've seen a lot

FAQs

- I cannot even work my iPhone, can I really do this?
- How do I know if my expert is actually qualified?
- What if I receive more data than I can manage?
- What if the data is just a bunch of junk?
